What are prefixes?
 A prefix is a group of letters we add at the beginning of a word.
 • Prefixes change the meaning or purpose of the word. e.g.
 How has the word meaning been altered?
 un + kind = unkind
 (The word has become its opposite meaning (antonym))

Write out the word list into

- 1) Alphabetical order
- 2) Meanings
- 3) Highlight prefixes - in, en, com, re, sub, ex, pre, con, mini, trans, out, epi,
- 4) Write at least one other word beginning with each prefix in the list above

Make two sock puppets and film the conversation between them about the challenges and awesomeness of learning at home instead of learning at school.

 And from all the lands on earth we come
 We'll share a dream and sing with one voice
 "I am, you are, we are Australian"*

Use these lyrics to wash your hands. You can rap it, shake it, shout it, record it. Get others in your household to sing along with you.
